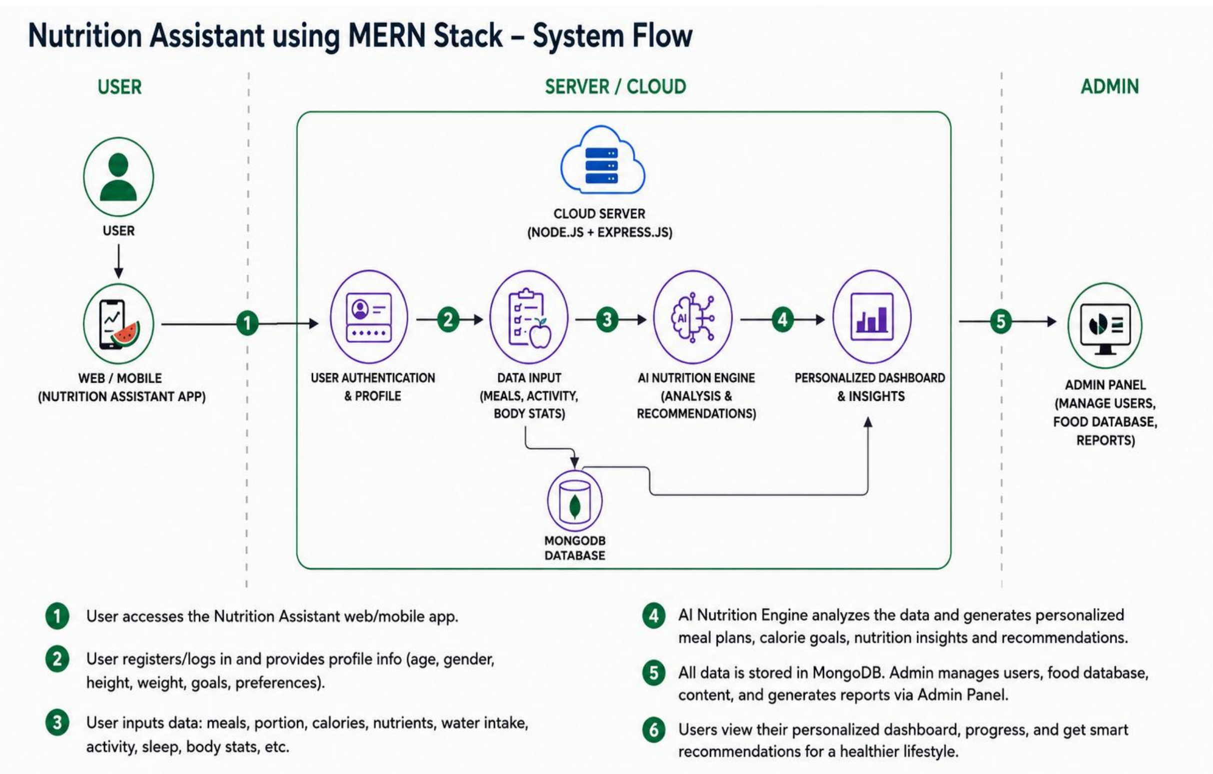
Project Design Phase-II
Technology Stack (Architecture & Stack)

Date	01 July 2026
Team ID	
Project Name	Nutrition Assistant Using MERN stack
Maximum Marks	4 Marks

Technical Architecture:

The Deliverable shall include the architectural diagram as below and the information as per the table1 & table 2

Example: Architecture for India's Agricultural Crop Production Analysis



Guidelines:

Include all the processes (As an application logic / Technology Block)

Provide infrastructural demarcation (Local / Cloud)

Indicate external interfaces (third party API's etc.)

Indicate Data Storage components / services

Indicate interface to machine learning models (if applicable)

Table-1 : Components & Technologies:

S.No	Component	Description	Technology
1.	User Interface	How user interacts with application e.g. Web UI	HTML5, CSS3, Bootstrap 5, JavaScript
2.	Application Logic	Visualization and interaction processing logic	Tableau Public Dashboard & Story Engine
3.	Database	Data Type, Configurations etc.	Microsoft Excel (.xlsx) Static Data
4.	Infrastructure	Application Deployment on Cloud	Vercel (Web Hosting), Tableau Public (Data Hosting)

Table-2: Application Characteristics:

S.No	Characteristics	Description	Technology
1.	Open-Source Frameworks	List the open-source frameworks used	Bootstrap 5 CSS Framework
2.	Security Implementations	Security / access controls implemented	Vercel Auto SSL/TLS Encryption
3.	Scalable Architecture	Justify the scalability of architecture	Tableau Public CDN distributed architecture
4.	Performance	Design consideration for the performance	In-memory Tableau data engine processing 345k rows
