

Project Design Phase-II

Data Flow Diagram & User Stories

Date	01 July 2026
Team ID	
Project Name	Nutrition Assistant Using MERN stack
Maximum Marks	4 Marks

Data Flow Diagrams: A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what

Flow – Nutrition Assistant using MERN Stack

changes the information, and where data is stored.

Example: (Simplified)

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Public User)	Dashboard Access	USN-1	As a user, I can view the interactive dashboard without logging in.	Dashboard loads successfully in browser	High	Sprint1
Customer (Public User)	Data Filtering	USN-2	As a user, I can filter agricultural data by State, Crop, and Season.	Charts update dynamically based on filters	High	Sprint1
Customer (Public User)	Geographic View	USN-3	As a user, I can interact with the India map to see state-wise production .	Tooltip shows exact production for the hovered state	High	Sprint-1
Administrator	Data Update	USN-4	As an admin, I can update the static dataset via Tableau Public.	New data reflects on the web app automatically	Medium	Sprint2
